816. SOCIAL MEDIA POLICY

1. Purpose

Both School District educational social media and commercial social media exist for Users to utilize. Therefore, social media could be used either as part of the School District’s educational mission or for business purposes, or as part of the Users personal commercial online presence. Mobile electronic devices, portable or stationary computers, and School District networks and systems, as well as Users’ networks, systems, computers, and devices are available for (or provided for) Users to carry out their social media activities. The purpose of the Pottsville Area School District ("School District" or “PASD”) Social Media Policy is to establish rules and guidance for the use of social media by students, employees, and guests (collectively “Users”).

A social media blunder is a critical problem with the potential to injure students, employees, guests, and others, to lose confidential information and data, to set back any progress that the School District has previously made, and to subject the User or the School District to litigation.

The above applies no matter where the use occurs whether brought onto School District property, to School District events, or connected to the School District network, or when using mobile commuting equipment and telecommunications facilities in protected and unprotected areas or environments, directly from home, or indirectly through another social media or internet service provider, as well as by other means. Users may not coerce others into providing passwords, login, or other security access information to them so that they may access social media or locations that they have no authorization to access. Users should note that information that they place in social media and designate as private can be accessed in litigation, can be distributed by their friends, and can be accessed in other various legal ways.

The Superintendent, and/or designee, is hereby granted the authority to create additional administrative regulations, procedures, and rules to carry out the purpose of this Social Media Policy. The administrative regulations, procedures, and rules accompanying this Policy must include among other items guidance in implementing and using School District educational social media and commercial social media, and the responsibility of Users for their own behavior when communicating with social media.

Where Users place their communication in “privacy” marked social media, they cannot expect that their information will not be disclosed by a person within their “private marked group”. Such information may be disclosed by others within the “private group”, or the information may be discovered as part of the discovery process in litigation, or it may be disclosed by other means. The School District may be provided this information and be required to investigate it further. The User should contact the Superintendent, and/or designee, to assess the various factors applicable in determining whether disclosure is applicable.

Users may not use the name of the “Pottsville Area School District” or its logo or mark in any form in social media, on School District internet pages or websites, on websites not owned or related to the School District, or in forums/discussion boards, to express or imply the official position of the School District without the expressed, written permission of the Superintendent, and/or designee.
